Re: *Ex parte* notification:  
WT Docket No. 99-87; Implementation of Sections 309(j) and 337  
of the Communications Act 1934 As Amended;  
RM-9332; Promotion of Spectrum Efficient Technologies on  
Certain Part 90 Frequencies

Dear Ms. Dortch:

On December 15, 2004 representatives of the Land Mobile Communications Council (LMCC) including Jill Lyon of the United Telecom Council (UTC), Elizabeth Sachs of the American Mobile Telecommunications Association (AMTA), Ken Keane of the Manufacturer's Radio Frequency Advisory Council (MRFAC) and Steve Sharkey of the Telecommunications Industry Association (TIA) met with Bryan Tramont, Chief of Staff to Commissioner Powell to discuss issues related to the above referenced docket.

Specifically, the parties reiterated LMCC's positions of record in the subject proceeding noting the need to accelerate the mandatory transition to 12.5 kHz narrowband operations, deferral of implementation of 6.25 kHz equipment requirements, and consideration of spectrally efficient technologies as an alternative to forced migration to a 6.25 kHz narrowband standard.

Pursuant to section 1.1206(b) of the Commission's rules, two copies of this letter are hereby filed with the Secretary's office. Please refer questions in connection with this matter to me at (703) 528-5115.

Respectfully submitted,

Donald J. Vasek  
Secretary/Treasurer
